Our Most Attractive and Beautiful Family of New Fancy Flowering Single Geraniums, "THE AURIOLES." 

PRICE, 25 CENTS EACH.

SPECIAL OFFER—We will send the Set of Six Varieties for $1.00, Net. No Further Discount.

Mad. Bruant.

No other Geranium on our grounds has ever attracted so much attention, or been so much admired at this beautiful new Auriole flowered variety. It is entirely distinct from any Geranium in cultivation, so much so that visitors on passing through the greenhouses, where hundreds of other varieties are in bloom, single it out at once as the most beautiful and attractive in the whole collection. It might with propriety be called the Pansy flowered Geranium, so distinctly it is from the ordinary style. The plant is a vigorous grower, making nice compact plants, and very free flowering, producing fine large trusses of blooms in great profusion, individual flowers large, of fine shape, center of flower white veined with carmine lake, the five petals regularly and distinctly bordered with bright sotlerino. The arrangement of color is exquisite and entirely new in Geraniums. An excellent variety for pot culture, being a continuous bloomer Winter and Summer. See cut.

Exposition de Lyon.

Outer edge of each petal rosy carmine, shading away to white at the center, the deeper shade often forming a ring of color like an aureole about the eye, and the veins very prominent and of bright carmine. A most attractive novelty.

Le Rhone.

A gorgeous rosy scarlet, with a white eye and white blotches on the upper petals, the upper part of the blotch shading into carmine at its junction with the ground color: floret quite circular, of the largest size; very distinct; catches the eye at once. Gives every promise of being a showy and sturdy bedder.

Fleur Poitevine.

Another very distinct colored variety. Large single flowers; color brilliant rosy carmine, marbled and striped with pure white. Producing an aureole of deep orange carmine at the center: the plant is dwarf but robust and wonderfully free flowering.

J. Sallier.

A vigorous growing and remarkably free flowering variety. Trusses very large and of perfect form composed of single flowers entirely distinct from any existing variety: edges of petals carmine lake; the center is washed in tints of rose and bluish Heliotrope color, the upper petals are veined carmine and marked with orange at the base. This is one of the most distinct and valuable Geraniums of the year and we recommend it highly.

Camille Bernardin.

Very large trusses, individual florets large and well formed, plant of excellent free flowering habit; rosy peach veined with bright rose and streaked and marbled with pure white. This is one of the best varieties we have seen in this class.
OUR IMPERIAL FLOWER SEED COLLECTION

16 Popular Annuals for a Silver Quarter, 25 Cents.

QUTE a number of our customers use only Roses and other plants in their garden and neglect to plant any flower seed. We will induce every one of the who at present do not beautify their homes by any flowers, to plant at least a few easily grown annuals. Our flower seeds are so cheap it is possible to obtain, and to introduce them into thousands of new homes this year we offer the following great bargain collection at the lowest prices:

NEW IMPERIAL HYBRID IPOMOEAS—A new race of Ipomeas that is difficult to describe; of wonderful and beautiful colors, some variegated, marbled, striped, flamed and exquisitely marded in marvelous combinations. Flowers of immense size: vine of rapid growth. Finest mixed.

NEW SWEET PEAS, GILT EDGE MIXTURE—We have made a mixture in proper proportions of all the new and distinct varieties, and can recommend it as an extra fine strain of Mixed Sweet Peas.

NEW DOUBLE CORN FLOWER—It is been so perfected that fully 80 per cent of the flowers are double and semi-double: they are also increased in size and present many bright colors and distinct markings which have been hitherto unknown.

LITTLE GEM SWEET ALYSSUM—The plants are very dwarf, spreading, and remarkably uniform in growth; they only grow three to four inches high, and each plant produces so as to completely cover a circular space twelve to twenty inches in diameter.

ASTER, NEW FAMOUS MIXTURE—Fine mixed varieties of all colors. Very choice.

BALSAM, SUPERB CAMELLIA-FLOWERED—Fine mixed; embraces all the best named varieties and is the finest mixed Balsam seed ever offered.

CALENDULA ORIOLE—This is surpassingly grand and brilliant, far eclipsing any Calendula hitherto known. The extra large double flowers are incomparably rich and glowing in tone, of an intensely bright golden-yellow.

MARGUERITE CARNATIONS, LARGE FLOWERING—Produce perfect double carnations in full beauty, all colors, in four months after sowing the seed in the open ground; grand hardy plants.

NEW GIANT-FLOWERED RED MIGNONETTE—This splendid new Mignonette is undoubtedly the largest and most showy variety in cultivation; the flower spikes are unequalled by any other variety, and the single flowers shot with a striped red color.

NASTURTIUM TOM THUMB—Mixed varieties, including all the best named sorts.

PANSY, EXTRA FINE MIXTURE—Large-flowering, very fine mixed, embracing all the separate colors of German Pansies.

PETUNIA, SUPERFINE MIXED—A fine mixture, embracing all colors, including striped and biotched varieties.

PHLOX GRANDIFLORA FINE MIXED—Varieties of the original Phlox Drummondii.

SALVIA SPLENDENS—The most gorgeous of all plants. Nothing can approach it for intensely brilliant color.

VERBENA, HYBRIDA MIXED—Grown from seed, much healthier plants are raised than from cuttings: all colors.

CLEOME PUNGENS, or Giant Spider Plant—The flowers are very showy, of a bright rose color; a luxuriant grower and always in bloom.

FOR 25 CTS. OR A QUARTER, we will send postpaid all the above 16 pts., of the choicest Flower Seeds. When the quality of our seeds is considered, this is the best collection of Flower Seeds ever offered, and would be a cheap at double the price. "Seeds that Grow."

THE C. A. REISER CO., URBANA, OHIO. "Seeds that Grow."
New Giant Imperial Ipomoea, or Morning Glory.

Here we have from Japan the new Imperial Ipomoea, or Morning Glory, a new mammoth class of flowers. The garden will lack a beautiful spot if it is without a fence corner or trellis covered with these glorious blossoms. The plants attain a growth of 20 feet by midsummer. The leaves are large, heart-shaped, many of them rich dark color, marbled with silvery white, or yellow. The flowers are really gigantic, being double the size of the ordinary kind; their main attraction, however, is not their enormous size, but their wonderful coloring. Their varieties of color are infinite, running from snow-white through all possible shades of blue, and of red from palest pink to darkest reds and purples. They are streaked, mottled, striped, marbled and bordered in wonderful fashion, and sometimes show rare shades of silver, grey, bronze, brown and slate-blue, colors rarely found in any other flowers. To each time, start the seeds in small pots in the house in March or April, and plant in a warm, sunny place. New Giant Single Flowering, mixed colors, Pkt. 10 cents; New Giant Double Flowering, mixed colors, Pkt. 25 cents.

New Dwarf Marguerite Carnations, "California Giants."

Everyone knows and admires the Marguerite Carnations. They are invaluable from the fact that they can be treated as Annuals, inasmuch as from seed sown in the open ground in the Spring they come into bloom in 4 months, and flower freely as the Annual Dianthus, while they possess the beauty and fragrance of the old Carnations, and are hardy, living from year to year. The dwarf, compact, bushy habit and free flowering character of the plant is shown in the illustration herewith. These flowers of perfect form, embrace many brilliant colors, and although of greatly increased size they do not burst the calyx. All will be delighted with this new strain by reason of the grand flowers, freedom of bloom, and the fact that they flower as quickly from seed as do the original Marguerite Carnations, possessing the same delicious fragrance. Finest mixed colors, per pkt. 15 cts., 2 pkts. for 25 cents.

FOUR GRAND SUNSET ROSES

METER MERMET

THE BRIDE—This is undoubtedly the finest white ever-blooming Rose ever offered to the public, and we take pleasure in recommending it to all our customers. It is a Rose that supplies a long-felt want. A few of the white ever-blooming Roses now in commerce have beautiful double flowers, but none of them compare with The Bride in the size and shape of the buds and half expanded flowers. The buds are very large and of exquisite form; the petals are of fine texture and substance, and the full flower is very double. The color is a delicate creamy white. The blooms can be cut with long stems, and will last in a fresh state after being cut longer than any known variety. Equally valuable either for Summer or Winter flowering. 10 cts., extra large, two year old plants, 25 cts.

CATHARINE MERMET—One of the finest Roses grown. Its name is the synonym for all that is delicate and beautiful. Its buds are inimitable, faultless in form and charming in every shade of color, from the purest silvery rose to the exquisite combinations of yellow and rose, which illumines the base of the petals. It is, beyond doubt, the Rose of all Roses, and you should not fail to have a Mermet in your collection. Price, 10 cts., extra large two year old plants, 25 cts.

SPECIAL OFFER—For 30 CENTS we will send you the "GRAND" SET of 4 of the best Roses that ever grew. Four sets of "The Grand" for $1. For 75 CENTS we will send them in two year old size, or 3 SETS two year old size for $1.75 net.

The Beautiful and Famous "La France" Set of Everblooming Roses.

RED, WHITE, STRIPED, PINK, CRIMSON, YELLOW AND CLIMBING.

THE 'La France' Roses are certainly nearest perfection of all flowers, and nothing can compare with them in the eyes of the true rose lover. A distinctive characteristic of the set is the true 'La France' fragrance by which every one may be known.

Set of 7 Hardy Ever-Blooming 'La France' Roses.

WHITE 'La France'—It is identical with 'La France' except the color. It is pearly white, sometimes tinted fawn. 10 cents; large two-year-old plants, 25 cents.

PINK 'La France'—Undoubtedly the most perfect type of a flower Rose; elegant foliage. No variety surpasses it in delicate colors—very rose, shaded pink, large, keeps well and of different pervading fragrance. 10 cents each; two-year-old plants, 25 cents.

STRIPED 'La France'—Imagine a lovely Rose with the shape and fragrance of 'La France,' of a rich creamy pink with a silvery gloss, growing deeply at base of petals. The whole beautifully etched and streaked with delicate Carmine. 10 cents each; large two-year-old plants, 25 cents.

CLIMBING 'La France'—Identical with 'La France' in every respect except in style of growth, which in this new variety is of strong climbing habit. Charming peach pink color and exquisite. 15 cents each; two-year-old plants, 30 cents.

YELLOW 'La France,' (New.)—Mad. Pernet Ducher—A charming Rose and a new shade in this section, being the first with a distinct yellow coloring. The inside petals are always given and assume a deeper shade toward the center, with a polished glittering surface like a Water Lily. 15 cents each; large two-year-old plants, 36 cents.

SPECIAL OFFER—For 75 cents we will send the set of 7 Hardy Ever-Blooming 'La France' Roses, or 3 sets for $2, or the set in large, two-year-old plants for $1.50. In ordering say the "La France" Set.
"Champion" Set Hardy Ever-Blooming Roses.

BALL OF SNOW—(Boule de Nieve)—In this variety we have a hardy ever-blooming Rose of great value. It is a Rose of great size, perfectly double, exquisitely fragrant, pure white in color and entirely hardy. Invaluable for cemetery planting, or where white flowers are desired, as it blooms freely all Summer. 15 cents each; extra large plants, 35 cents.

CHAMPION OF THE WORLD—A very hardy everblooming Rose; advertised extensively. The introducer claims that it is the champion in hardiness, fragrance, vigor, form and color, and for Winter blooming. While we can not endorse all the good qualities claimed for it, we have found it a remarkably free-flowering hardy Rose, resembling very much Mrs. DeGraw. Color, a rich deep, rosy pink, darker and richer than Hermosa. It is always in bloom and is quite hardy. 15 cts. each, two year old plants, 35 cts.

DINSMORE—Very similar to Madame Charles Wood, but claimed by the originator to be much stronger in growth and more fragrant. It is a vigorous Rose of dwarf, branching habit, and is fairly loaded down with flowers all Summer long. The flowers are large, perfectly double, of a striking yellow scarlet crimson color, with a rich, spicy fragrance. It is entirely hardy and blooms incessantly. 15 cents each; two year old plants, 35 cents each.

MRS. DEGRAV—One of the best Roses for general cultivation. It is entirely hardy and equals the tender sorts in profusion of bloom. From early Summer until frost it may be depended upon to produce flowers in abundance. In color it is a rich, glossy pink, delightfully fragrant, and is such a strong grower that it is almost impregnable against the attacks of insects which usually destroy some of our finest Roses; thus it is certain to be unequalled for the garden. 15 cents each; two year old plants, 35 cents each.

MADAME MASSON—An excellent Hybrid Perpetual, noted for its constant and profuse bloom. The flowers are large, color a clear, bright Rose, highly perfumed. One of the best for planting. This Rose is a very superb variety, and should be more generally known. Try it. Price, 15 cents each; two year old plants, 35 cents each.

MADAME ALFRED de ROUGEMONT—A strong, vigorous grower; begins to bloom at once, and continues until stopped by severe freezing. Pure snow-white flowers, finely tinged and clouded with pale, rosy blush. Large, full and double, and borne in large clusters. Fragrant and fine. Price, 15 cents each; two year old plants, 35 cents each.

SPECIAL OFFER—For 75 cents we will send, free by mail, the above set of six Hardy Ever-Blooming Roses, or for $1.25 we will send two sets of the above Roses. This set in large, two year old plants for $1.25. No discount on this offer.

The Five Hermosas, Perpetual Bloomers.

Price. 10 Cents Each. Large, two year olds. 25 Cents Each.

The Best for House or Garden Culture. Constantly in Bloom.

RED HERMOSA—Color, a rich, dark velvety crimson, scarlet, literally loaded with flowers at all times; extra good for the house or garden.

WHITE HERMOSA, or Marie Lambert—Pure white. It has been called Hermosa, as it resembles Hermosa in form and freedom of bloom, and is quite valuable, for though no claim has been made for it as a fancy Rose, its persistence in bloom will make it a very popular white variety for bedding or for pots.

PINK HERMOSA—A clean, healthy grower; color, bright pink. It is grown largely in New York cemeteries for its hardiness and continuous blooming.

YELLOW HERMOSA, or Coquette de Lyon—This is a most charming yellow Tea Rose, a good grower, has elegant buds, and is so free in flower as to be called the Yellow Hermosa. A Rose that will please all.

BLUSH HERMOSA—This elegant new Tea Rose has been thoroughly tested, and has given perfect satisfaction. It is a strong and robust grower, and a constant and profuse bloomer. The color is a soft white blush, delicate rose center shaded with fawn, the flowers are of large size, very full and delightfully sweet.

SPECIAL OFFER—We will mail the 5 Hermosas, one of each, for 35 cents. The set in two year old plants for 75 cents. No Further Discount.

AMERICAN BEAUTY—Many of our friends know all about this grand Rose and value it accordingly. To others we would say that this is one of the best and most valuable Roses, both for garden and house culture. Color, rosy crimson, exquisitely shaded and very handsome. Extra large, full flowers, exceedingly sweet. Price, 25 cts., one size only.

NEW CRIMSON ROSE, PRINCESS SAGAN—The flowers of this variety are the richest crimson of any Rose in our vast collection; a single bud or blossom will catch the eye at a great distance, so brilliant is the color. Indeed, it is unmatched in its velvety richness; could well be termed "The Velvet Rose." Price, 10 cts. each; two year old plants, 40 cts.

CHRISTINE de NOUE—An exceptionally fine new Rose, of the red color yet scarce among Teas; deep, dark maroon-crimson, with a bright full center. Buds long and pointed; flowers of unusual size and form, composed of large, broad petals, delightfully fragrant; strong stems. Price, 15 cts. each; large two year old plants, 40 cts. each.

WABAN, or RED MERMET—In foliage and vigor it resembles its parent. Flowers borne on long stems, in form somewhat larger and exceeding in size and number of its petals. Color, deep carmine-scarlet, bright, on the outside petals, color increasing in intensity toward the end of petal, and approaching the center of the bud each petal increases in intensity of color. Reflex petals more delicately shaded stronger at the end of the petal. A gem in every way. Price, 10 cts. each; large two year old plants, 35 cts. each.

GOLDEN GATE—Of rare beauty, strong, healthy growth, and great freedom of bloom. The flowers are extra large, full and finely formed, with broad petals of lasting substance; the buds are long and pointed. Color, rich creamy white, delicately tinged with golden; buds exquisitely bordered and tinted with clear rose. Price, 15 cts. each; large two year old plants, 35 cts. each.

THE QUEEN—A superb new ever-blooming Tea Rose. One of the very best pure white varieties for general planting; a vigorous, healthy plant and one of the heaviest and most continuous bloomers. The flowers are large, full and well filled; color, pure snow white and very sweet. A remarkably early force; makes fine buds; older well, and a plenty of substance, and is a good keeper. Price, 10 cents each; large, two year old plants, 35 cents each.

NEW TEA ROSE, SENATOR McNAGTHON—This is a beautiful Rose of the des Jardins type, being a sport from that well-known variety. The habit, growth, shape and size of buds are the same. The flower is identical, differing only in color, being a pure white and softly golden tints, one of the most beautiful Roses grown. Price, 15 cts. each; large, two year old plants, 40 cts.

MADAME CAROLINE TESTOUT—Luxuriant, fragrant, long stemmed buds and flowers. No one can see this lovely New Hybrid Tea Rose and not be impressed with its perfect beauty. Nothing can approach it in color; the flower is very large, growth vigorous and quite hardy, will stand the Winter except in exposed situations. Both flowers and buds are extra large, highly fragrant, of very elegant form and lasting substance. Color, clear satiny rose, deepening to a center, wonderfully soft and pleasing. Price, 15 cts. each; large, two year old plants, 40 cents each.

COMTESSE de FRIGNEUSE (Golden Pearl)—A charming blooming Tea Rose, with fine colored foliage. The buds are long and pointed and highly perfumed; like Microtus in form; good size. Color, delicate canary yellow, softer shade on inside of petals. It forms very freely and its buds are much sought after. Try it. Price, 10 cts. each; large, two year old plants, 40 cents each.

MADAME HOSTE—Nearly every lover of beautiful flowers counts among his favorite Roses the Perle des Jardins, and will certainly seek it this Spring. This new Rose when we state its large and beautiful petals are larger and longer than that well known Tea Rose. Generally the petals are a clear ivory white. They can always be cut with full size, and have a most lovely scent. Price, 10 cts. each; large, two year old plants, 40 cts each.

BRIDESMAID—A sport from the well known Catherine Mermet but so much better both in growth and color that we think it will in time supersede it. The Bridesmaid at all times produces buds and flowers of a much deeper shade of pink than its parent. The stems are long and stiff and the bud is so exquisite in form, so solid and firm, that no other Rose can compare with it in keeping qualities after being cut. 10 cts. each; large, two year old plants, 30 cts each.

AMERICAN BEAUTY.
THE BRIDE—"The Bride" is a pure white Rose, of large size and most perfect form. This variety has the most delicious tea fragrance, and is a strong-growing, free-blooming Rose, either for Summer or Winter flowering. Price, 10 cts. each; large, two year old plants, 30 cts. each.

MAD. JULES FINGER—A New Hybrid Tea of great beauty. The large and handsome flowers are full and globular, well poised, and can be cut with long stems. Color, a beautiful cream-white, shaded with rose, and salmon-colored center passing to pure white. Price, 20 cts. each; large, two year old plants, 40 cts. each.

PERLE DES JARDINS—The wide popularity of this Rose renders it a long description superfluous. It has absolutely no weak point, being rich in color, fragrance and foliage, free-blooming and robust in growth. The young shoots are bright red, bearing round, symmetrical buds on long stems. The open flower is large and full; color, rich canary yellow and of a bright, pure shade. Price, 10 cents each; large, two year old plants, 35 cents each.

CLOTILDE SOUPERT.
The Best Bedding or Pot Culture Rose Grown.

This lovely Rose comes from the Garden of Luxembourg, France, and is undoubtedly the finest Rose of its class. The flowers are borne in clusters, and are of large, round flat form, with beautifully imbricated petals; perfectly full and double, and deliciously sweet; color, beautiful pinkish amber or creamy yellow, delicately flushed with silver rose, sometimes ivory white, exquisitely tinted with pale salmon, and sometimes both red and white flowers are produced on the same plant. It is a particularly elegant and handsome Rose, always greatly admired. The bush is a vigorous, compact grower, and a continuous and remarkable profuse bloomer, being literally loaded with Roses. It is highly recommended for window and house culture. In fact, we think it is one of the very best. Price, 10 cts., 3 for 25 cts., large two year old plants, 25 cts. each.

QUEEN'S SCARLET.
The Best Crimson Bedding Rose.

This is, without a doubt, the very best of all Red Roses for bedding. It can be planted anywhere being entirely hardy. The flowers are large size and a beautiful crimson scarlet color of dazzling brilliancy. A bed of this Rose produces a mass of color equaling if not excelling a bed of Geraniums. It is planted everywhere on account of its great freedom of bloom and charming color. None better. Try a bed of Queen's Scarlet and Clotilde Souupert. Price, 10 cts. each; 3 for 25 cts.; large two year old plants, 25c. each.

CAROLINE MARNIESSE, A GRAND ROSE FOR CEMETERY PLANTING.
Continually in Bloom and Perfectly Hardy.

A most valuable Rose for general cultivation, and especially for planting. As a perpetual bloomer we have never found its equal. Even during a recent dry season, when most of the other so-called perpetual bloomers were so affected by the drought as to show scarcely any blossoms, the rows of Caroline Marniesse were a continuous mass of bloom. There was not a week from late May till the middle or latter part of October that large quantities of blossoms could not have been picked from these plants. And under even ordinarily good conditions of cultivation, purchasers of this Rose have found them having equally good results. The growth is low and somewhat spreading, making it especially valuable for the borders of beds. It is also very effective for massing in any position. Plants of the right age for transplanting will not have the height of some of the more rampant growing sorts; but the amount of flowers produced will be vastly greater. The flowers are pure white, sometimes slightly tinged with pink, produced in great abundance, the plants often being literally covered with them; of medium size, very double and very sweetly scented. To the average amateur, especially, while they appreciate and delight in the beautiful flowers, have little time or study to give to their culture, this Rose will prove a most valuable acquisition.

Price, 15 cents each; two for 25 cents. Large, two year old plants, 40 cents each.

The Old English Sweetbriar Rose. No Garden Should be Without One Plant at Least.

EGLANTINE—Very desirable for shrubberries and general planting. Flowers are bright pink and single, but the exquisite fragrance of the flowers, leaves and young branches in the early Spring, frequently perfumes a whole neighborhood. Price, 26 cents each; large, two year old plants, 50 cents each.

Continually In Bloom. It Makes No Difference What Season of the Year it May Be. Almost Entirely Hardy. Will Live Out in the Open Ground With Slight Protection.

The Clotilde Soupert Rose is famous the world over for its freedom of bloom and splendid flowers, and is the synonym for all that is beautiful in Roses. Whether it is grown in pots or in the open ground, it can always be depended upon to give a bountiful and continuous supply of buds and bloom throughout the entire year. They never fail to grow and bloom in almost any situation.

New Yellow Soupert.

"Mosella."

This splendid novelty we have just secured from Germany; its origin is almost identical with that of the Soupert, a cross of the Polyantha and the beautiful Tea Rose, Madam Falcot. It blooms in profuse clusters of three to five flowers, which are very double, ball-shaped and open like a Camelia flower. The petals are tinted white, on beautiful light yellow ground, extending to the middle of the petals, then deepening to an orange yellow. The plant is dwarf, bushy and free-blooming. We take great pleasure in offering this fine Rose this year. It is sure to be a popular companion to the original Clotilde Soupert.

Price, 15 cents each; two for 25 cents; large, two year old plants, 40 cents each.

New Silver White Soupert, Leonie Osterreith.

New Pink Ever-Blooming Bedding Rose—Pink Soupert.

A seeding from that premier Bedding Rose, Clotilde Soupert, of which we have spoken so highly. "Pink Soupert" inherits all the grand garden qualities of its parent and is a clear pink throughout, bright and attractive; the coloring deepens in some flowers to cherry red, and in others it lessens to clear Hermosa pink. The profusion of bloom is wonderful, the whole plant being a mass of flowers. No rose can possibly excel this for outdoor bedding, and none can be more attractive. It is compact and sturdy in habit, and so hardy for an ever-blooming Rose that it will remain out all Winter safely with slight protection. Price, 15 cents each, two for 25 cents; large, two year old plants, 25 cents each.

The Best Bedding or Pot Culture Rose Known, Clotilde Soupert.

This lovely Rose comes from the Garden of Luxembourg, France, and is undoubtedly the finest Rose of its class. The flowers are borne in clusters, and are of large, round, flat form, with beautifully imbricated petals; perfectly full and double, and deliciously sweet; color, beautiful pinkish amber or pale creamy yellow, delicately flushed with silver rose, sometimes ivory white, exquisitely tinted with pale salmon, and sometimes both red and white flowers are produced on the same plant. It is a particularly elegant and handsome Rose, always greatly admired. The bush is a vigorous, compact grower, and a continuous and remarkably profuse bloomer, being literally loaded with roses. It is highly recommended for window and house culture; in fact, we think it is one of the very best. Price, 10 cents each, three for 25 cents; large two year old plants, 25 cents each.

Three Magnificent New Roses.

CLIMBING METEOR.

This New Rose, now introduced for the first time, might more properly be called a Perpetual Blooming Climbing General Jacqueminot. Though a sport from the finest of all Hybrid Teas—Meteor—it is much larger, and of a deeper, richer color, equalled only by the peerless Jacqueminot, and will produce twenty blossoms to Jacqueminot’s one. It is a Rose which will make ten to fifteen feet of growth in a season, and show a profusion of bloom every day. Foliage, strong, healthy and luxuriant. Buds exquisite; flowers, large, beautifully shaped, and of that rich, dark velvety crimson color seen only in the Jacqueminot. Much deeper and richer than Meteor. We do not hesitate to pronounce it the finest Rose in existence for Summer blooming, as it will make a large growth and is loaded with its glorious blossoms all the time. For Winter blooming it has few equals in beauty and probably none in profusion. Just the rose to train up in a conservatory or bay window, where its exquisite blossoms will show to wonderful advantage. Price, 15 cents each, two for 25 cents; large, two year old plants, 50 cents each.

New French Hybrid Tea Rose,

Souv. de President Carnot,

Nothing we have seen is so fascinatingly attractive, or that will compare with the beautiful flowers, which are very large, perfectly double, exquisitely shaped, with heavy thick, shell-like petals. Superb buds; long and pointed, and borne on long, stiff stems and are produced in remarkable profusion. The color is new and refined, a very delicate shade of rosy blush, shaded a trifle deeper at the center of flower. The fragrance is deliciously refreshing and charming. The plant grows strong and sturdy, and has no weak spot in its constitution. The foliage is unusually large and handsome. In every way it is one of the handsomest Roses and perfect in its graceful form and finish. Price, 30 cents each; large, two year old plants, 50 cents.

New Climbing . . .

Wootton Tea Rose.

The Celebrated Gold Medal "Rambler" Rose Family Adapted to the Entire Country.

THE NEW PERFECTLY HARDY YELLOW CLIMBING ROSE—YELLOW RAMBLER.

Withstanding Zero Weather With Impunity.

The flowers are borne in immense clusters, after the same manner as the Crimson Rambler, often as many as one hundred and fifty blossoms in a bunch, and the trusses have the same handsome pyramidal shape as those of Crimson Rambler. Color, a decided yellow. Many Roses which have yellow as yellow have really only a creamy tinge. Yellow Rambler is a clear, decided yellow. Flowers of moderate size, borne in large clusters, often bearing from 20 to 150 flowers in a cluster, very sweetly scented. Flowers last 3 to 4 weeks without fading, and a large bush in full bloom is one of the most beautiful and magnificent sights imaginable. The habit of growth is very vigorous, well established plants often making shoots of from eight to ten feet in height in a single season. It is bound to attain great popularity. Buy the only real hardy yellow Climbing Rose known at the present time. Price, 25 cts. each; large, two year old plants, 50 cts. each.

GOLDEN RAMBLER (Allister Stella Gray)—In habit of growth and profusion of bloom this is similar to the famous Crimson Rambler. It is a vigorous grower and blooms profusely both early and late. "CRIMSON RAMBLER"—It is of rapid growth; the flowers are produced in trusses, pyramidal in shape, good specimens measuring nine inches from base to tip and seven inches across, fairly covering the plant from the ground to the top, so that it is a mass of glowing crimson. The color is superb, and remains strong and vivid to the end; plants in our grounds retained the bloom for two months. The profusion of bloom is marvelous. LEOPARD, (New Spotted.)

The engraving of Chrysanthemum "Leopard" gives an excellent idea of this most distinct variety. The ground color is a deep shade of carmine, irregularly splashed and dotted with pure white, entirely different from anything else. It is of full average size, graceful form, and has the great advantage of being one of the latest flowering kinds. The cut flowers of "Leopard" sold at fifty cents per bunch, while other sorts only brought half price, while the Chrysanthemums are admirably for the decoration of the critical New York trade for this variety.

LILLIAN B. BIRD.

Of the very largest size, long, tubular petals of perfect form, producing flowers which are twelve inches in diameter. The color is an exquisite shade of "pumpkin," the flower when fully open being an immense half globe, a magnificent variety. This variety always has an immense demand.

MRS. ALPHEUS HARDY, The Ostrich Plume.

No engraving can do justice to the unique and peerless beauty of this Chrysanthemum. Imagine plants completely covered with flowers in every circumstance, whose petals curve gracefully inward, and which, in turn, are dotted with a peculiar, hairy-like covering, making one thing else, masses of snow white Ostrich Plumes, and then you begin to form some idea of the beauty of this royal flower.

MRS. PERRIN—Has slender, stiff stems, ornamental foliage. The flower is of globular form, incurved, full, and with a finish as fine as satin. Color, rose pink within, glistening pink without. Recognized as the ideal variety in this color. Received first prize wherever shown as best pink; at Boston, Philadelphia and Chicago, and received the most flattering notices everywhere.

MRS. HENRY ROBINSON—Immensely incurved, broad channeled petals of great substance and the purest white—can be used a few days earlier, but is a sin to cut it until the center petals have begun to develope; from a flat incurved form it gradually changes into a perfect ball of snow. Foliage handsome; a variety of the easiest management.

OAKLAND—Clear shade of even terra-cotta, full and deep. Straight stem and good foliage. Four feet high. A splendid exhibition bloom. Has taken first prize wherever exhibited.

PHILADELPHIA—This most unique and beautiful variety is the wonder of all who saw it. An immense incurved flower, with petals of great width, opening yellow, but changing to white with yellow at the tips. This is its distinctive feature, and a more charming effect cannot be conceived.

SIGNAL LIGHT—Pale yellow incurved. Reverse of lower petals tipped red bronze; finely built flowers; solid and perfectly double, lasting a long time. Habit very dwarf. Foliage beautiful and right up to the bloom.

SILVER CLOUD—A grand variety; a beautiful grower with heavy, stocky stems, clothed with elegant foliage. Flower of enormous size, crowded with wax like petals of great substance, form exquisite. Color, a beautiful cream with citron shadings turning to a most delicate salmon.

Admiral Ito, The Amber Colored Morel.

A very handsome flower of large size that blooms very late, of sturdy constitution: color, a beautiful amber yellow; an excellent variety.

Price, 15 cents.

Innumerable inquiries come every year for the best very late white. For the present, Yanoma must be accorded this place; beside the fact that the flower is very beautiful and substantial, it is very easy to bring to perfection, which is a great point in its favor, as many of the late varieties are poor, defective growers; the form is rather flat, petals reflexing to the horizontal, but not drooping at all; what we call the pure rosette form; it is above the average in size, and a beautiful clear shade of white. November 30th and later.

Price, 20 cents.
